News From the Field

Students Build Robotic Teams in Summer Research Experience

August 5, 2009

Robots can build cars, vacuum rooms and even diffuse bombs, but they also like to have a little bit of fun--which is why a group of Lego robots and their student creators marked the conclusion of a summer research experience with a little friendly game of robot soccer. [Full Story](#)

University of South Florida

The National Science Foundation (NSF) is an independent federal agency that supports fundamental research and education across all fields of science and engineering. In fiscal year (FY) 2009, its budget is \$9.5 billion, which includes \$3.0 billion provided through the American Recovery and Reinvestment Act. NSF funds reach all 50 states through grants to over 1,900 universities and institutions. Each year, NSF receives about 44,400 competitive requests for funding, and makes over 11,500 new funding awards. NSF also awards over \$400 million in professional and service contracts yearly.
